

CAEN

# UNIVERSITÉ DE CAEN NORMANDIE

UNIVERSITÉ  
CAEN  
NORMANDIE

Founded in 1432, Université de Caen Normandie (UNICAEN) is among Europe's 10 oldest universities. The university enrolls some 30,000 students on several campuses in Caen and other regionally implated campuses (Alençon, Cherbourg-Octeville, Lisieux, Saint-Lô, and Vire). Each of Unicaen campuses makes modern equipment available to students, enhancing students' quality of life and opportunities for academic success.

## ◆ MAIN PROGRAMMES OF STUDY

- Science, Technology, Health
- Humanities and Social Sciences
- Law, Economics, Management
- Art, Letters, Languages

UNICAEN has a long tradition of interdisciplinarity: graduate schools break the boundaries of traditional areas of studies to form an innovative and contemporary research. Starting at Master level, trainings combine the different scientific domains to match the future career of students.

## ◆ RESEARCH

Twenty-one of UNICAEN's 45 research units are affiliated with national research organizations such as CNRS, INSERM, CEA, INRA, and IFREMER. The University research efforts, organized in three multidisciplinary clusters, bring together all major academic partners in Caen: among them are Ecole Nationale Supérieure d'Ingénieurs (ENSICAEN), the national heavy ion accelerator (GANIL), CYCERON (a neuroscience imaging platform), the University hospital, and François Baclesse regional cancer center. A center for research in humanities and ICORE (a super-institute for research on cells' interactions assist in the management of Unicaen research efforts.

## ◆ STRENGTHS

- Quality of life: Caen 1st Norman city in the national ranking of major cities where to study
- Research environment and partnerships: main regional University, UNICAEN works tighly with the Regional Council, the engineering schools, the local authorities and companies implanted in the Region
- Professional insertion rate, 90% all diplomas included

- Internationalisation, a strategic priority: scientific cooperation, student mobility, full-English tracks, foreign language training for all disciplines, support for integration and French language training for international students and researchers

## ◆ LOCATION

- 2hrs from Paris
- 15 minutes from the Norman seaside
- 3 daily ferries to Portsmouth, England
- 1 airport with daily flights to/from Lyon and weekly flights to/from Marseille, Toulouse & Bordeaux

## IDENTITY FORM

- ◆ **Precise name of the institution**  
Université de Caen Normandie
- ◆ **Type of institution**  
Public
- ◆ **City where the main campus is located**  
Caen
- ◆ **Number of students**  
30 000
- ◆ **Percentage or number of international students**  
8 %
- ◆ **Type and level of qualifications awarded**  
LMD - Health studies - University degrees (DU)
- ◆ **French language courses**  
Yes - University diplomas of french studies - International summer courses - Summer Schools - Language improvement programs - 'à la carte' programs
- ◆ **Programs for international students**  
Yes - - Master in International Management - International summer courses - Specific programs and combined trainings: contact Carré international
- ◆ **Programs in English**  
Yes - Master in International Management
- ◆ **Registration fees/year (for information only)**  
- Droits de scolarité LMD + Engineering: from €170 to €601 depending on diploma  
- CVEC: €91

NANCY ET METZ

# UNIVERSITÉ DE LORRAINE

Richly diverse through its disciplines, Université de Lorraine pursues a wide range of international activities: in- and outbound student, PhD, academic & research staff exchanges : degree programs offered jointly with other institutions (including several Erasmus Mundus master's programs, co-tutelle, International joint labs, international & European research groups).

The university is a major force in the economic and social development of the region Grand Est and cross-boarder cooperation (Germany, Belgium and Luxemburg).

With five centuries of history, Université de Lorraine is also a pioneer in the collaboration between arts, technologies, and industry, as embodied today in innovative projects such as ARTEM, the Institut Jean Lamour, the Institut Lafayette, and the Biopôle, among others by crossing approaches to answer societal challenges.

## ◆ MAIN PROGRAMMES OF STUDY

Université de Lorraine has 42 academic departments, schools of engineering, and institutes. These are organized by field of study into colleges. 9 colleges span the range of disciplines offered at the university:

- Arts, letters, and languages
- Law, economics, and management
- Lorraine INP (engineering)
- Lorraine Management Innovation
- Interface
- Health
- Science and technology
- Humanities and social sciences
- Technology (8 university-affiliated institutes of technology).

## ◆ RESEARCH

Research at Université de Lorraine is organized into 10 clusters:

- Agronomy, food-processing, forestry (A2F)
- Automatics, Maths, Computer Sciences and Interactions (AM2I)

- Biology, medicine, and health (BMS)
- Consciousness, language, communication, and society (CLCS)
- Molecular chemistry and physics (CPM)
- Energy, mechanics, processes, and products (EMPP)
- Matter, materials, metallurgy, and mechanics (M4)
- Observatory Earth and Environment of Lorraine (OTELo)
- Law, politics, economics, and management (SJPEG)
- Time, space, literature, and language (TELL)

## ◆ STRENGTHS

Our research centers are active in **all scientific fields**, with **areas of excellence** emerging in the areas of:

- Natural resources, energy, and materials,
- Language and knowledge engineering, and
- Molecular engineering and technologies for health.

Intense partnerships with national public research organizations and with industry

## ◆ LOCATION

Located at one of Europe's busiest crossroads, Université de Lorraine is close to the borders of Germany, Belgium, and Luxembourg and just a 90 minute train ride from Paris.

## IDENTITY FORM

◆ **Precise name of the institution**  
Université de Lorraine

◆ **Type of institution**  
Public

◆ **City where the main campus is located**  
Nancy et Metz

◆ **Number of students**  
60 000

◆ **Percentage or number of international students**  
16%

◆ **Type and level of qualifications awarded**  
LMD - Other national diplomas: DUT, engineering (diplôme d'ingénieur), state-sanctioned medical and paramedical degrees  
Institution-specific degrees: DU - Other degrees and diplomas: Certificate of qualification, preparation for national postsecondary teaching exam, specialized graduate diploma in health

◆ **French language courses**  
Yes - French language courses are available all year long.

◆ **Programs for international students**  
Yes - 6 one term semester courses are available for foreign students (undergraduates)

◆ **Programs in English**  
Yes - 13 Master degrees, 1 bachelor, 5 terms (Networks & Digital communication, Electrical Engineering, Quality Management, Mechanical & Production Engineering, Civil Engineering)

◆ **Registration fees/year (for information only)**  
Licence: about 200 euros - Master: about 260 euros - Doctorate: about 400 euros  
- Engineering program: about 600 eurosPlus approximately 215 euros per year for membership in student health plan.

◆ **Postal address**  
34 Cours Léopold - CS 25233 - 54052 NANCY Cedex France

REIMS

# UNIVERSITÉ DE REIMS CHAMPAGNE-ARDENNE

A comprehensive university located just 45 minutes from Paris in a dynamic region rich in history. The Université de Reims enrolls

- 25 000 students
- 1350 teaching and research staff
- 1000 administrative staffs and techniques
- 10% foreign students

#### ◆ MAIN PROGRAMMES OF STUDY

- 27 licences, 57 professional licences, 53 Masters with 96 specialties in all fields, 1 national diploma in oenology, 1 degree physiotherapist, 1 degree in midwifery, 3 engineering degrees, 3 university diplomas of technology, 16 short cycle professional degrees, 6 double or joint diplomas
- University divisions: Literature and Social Sciences Law and Political Science Economics and Social and of Management Medicine Pharmacy Odontology Exact and Natural Sciences Physical Education University Centre in Troyes
- Technical institutes of Reims- Châlons-Charleville and Troyes
- ESI-Reims(École Supérieure d'Ingénierie) in Packaging
- Institute of Higher Technical Training (IFTS)
- ESPE (Formation des maîtres)

#### ◆ RESEARCH

- 30 approved research teams **labelized in 4 scientific hubs of research:**
- Agro-science, environment, biotechnology and bio-economy
  - Social and human sciences
  - Health
  - digital and Engineering Sciences
  - 2 Doctoral Schools (472 PhD students with 199 internationals) :
  - Doctoral School of social and human sciences
  - Doctoral School of Agriculture, Food, Bilology, environment and health
  - Doctoral School of basic sciences and health
  - Doctoral School of digital and engineering sciences

#### ◆ STRENGTHS

- Active policy of reception and integration of international students (Quality Chart for exchange programs and European Label for Quality of Internationalisation CeQuInt)
- The Centre International d'Études Française, which offers language and civilisation courses on 6 levels of French as a Foreign Language (FLE), has a capacity of 250 to 300 students per semester and serves as a testing centre for the DELF and DALF language-proficiency certificates. Every semester costs 900€. Summer language courses in June and July, 3 weeks, 500€

#### ◆ LOCATION

Strategic location near the French capital (45 minutes by high-speed train), Belgium, Luxembourg, and Germany. Airport Paris CDG in 30minutes by train

#### IDENTITY FORM

- ◆ **Precise name of the institution**  
Université de Reims Champagne-Ardenne

RENNES

# UNIVERSITÉ DE RENNES 1

The **Université de Rennes 1**, which has its roots in the 15th century, is one of the twelve main French universities. Located in the heart of a city on a human scale, it is only an hour and a half from Paris. The quality of its research and its links with the socio-economic world have made it an internationally recognised university. It has 17 IRP (International Research Projects, ex-LIA), 4 IRN (International Research Networks), 150 international agreements and more than 200 Erasmus agreements. The university has 19 departments (10 Faculties, 1 IPAG, 1 IGR-IAE, 4 IUT, 2 Engineering Schools, 1 Observatory of the Sciences of the Universe) with 30,000 students, of which 10% are international students. It offers degrees taught entirely in English in the fields of chemistry, environmental sciences, computer science, economics and management. Since 2019, it has been part of the European Digital UniverCity (EDUC) alliance, one of the first universities selected by the European Commission.

## ◆ MAIN PROGRAMMES OF STUDY

Faculty of Science,  
Computer Science and Electronics (Istic),  
Mathematics,  
Observatoire des Sciences de l'Univers de Rennes (Osur),  
Life and Environmental Sciences (SVE),  
Sciences and properties of matter (SPM),  
Medicine,  
Odontology,  
Pharmacy,  
Law and Political Science,  
Economic Sciences,  
Institute of Management of Rennes (IGR - IAE),  
Institut de Préparation à l'Administration Générale (Ipag),  
Philosophy,  
IUT of Lannion,  
IUT of Rennes,  
IUT of Saint-Brieuc,  
IUT of Saint-Malo,

Ecole Nationale Supérieure des Sciences Appliquées et de Technologie (Ensat),  
Ecole Supérieure d'Ingénieurs de Rennes (Esir)

## ◆ RESEARCH

30 research units and 9 doctoral schools in the following fields

- Biology Health
- Law and Political Science
- Maths - STIC (Mathematics, Science and Technology of Information and Communication)
- Matter, Molecules and Materials
- Engineering Sciences
- Societies, Time and Territories
- Economics and Management Sciences

Some thirty research structures in collaboration with foreign laboratories: 21 IRP (International Research Projects), 7 IRN (International Networks), 1 International Research Laboratory (IRL) in Tsukuba, Japan ("laboratory for innovative key material structures")

## ◆ STRENGTHS

The university provides a personalised welcome and support in the form of tutoring to encourage the integration of foreign exchange students. They can also have access to accommodation in a university hall of residence (agreement with the Crous), take advantage of French courses and participate in cultural activities organised throughout the year.

## ◆ LOCATION

Brittany has a population of over 3 million and is the 5th largest region in France in terms of research and development.

The city of Rennes, the regional capital located 1h30 from Paris, currently has 216,000 inhabitants. Renowned for its quality of life, it was voted 2nd best student city (2021 ranking by L'étudiant magazine).

## IDENTITY FORM

- ◆ **Precise name of the institution**  
Université de Rennes 1
- ◆ **Type of institution**  
Public
- ◆ **City where the main campus is located**  
Rennes
- ◆ **Number of students**  
30 000
- ◆ **Percentage or number of international students**  
10 %
- ◆ **Type and level of qualifications awarded**  
Bachelor's degree, Master's degree, PhD, University degree
- ◆ **French language courses**  
Yes - The University of Rennes 1 provides free French as a Foreign Language courses to international exchange students.
- ◆ **Programs for international students**  
Yes - The university offers 30 double degrees with international partners and off-campus training sessions, as well as 20 programmes taught entirely in English.
- ◆ **Programs in English**  
Yes - Université de Rennes 1 offers degrees fully taught in English in the following fields: Chemistry, Material science, Earth science, Computer science, Economy, Management, Marketing
- ◆ **Registration fees/year (for information only)**  
- Bachelor's degree: €650 per academic year  
- Master's degree: €950 per academic year  
- Engineering course: €1370 per academic year  
- Doctorate: €380 per academic year (2022-2023 rate)
- ◆ **Postal address**  
2, rue du Thabor - CS 46510 - 35065 Rennes Cedex - France

STRASBOURG

# UNIVERSITÉ DE STRASBOURG

Université		
de Strasbourg		

The University of Strasbourg has a history spanning five centuries adorned with famous names, and a rich heritage.

'Our excellence, your future' The excellence of the University of Strasbourg is recognised on a national and international level by the award of the Excellence Initiative label (IdEx). This funding program allows the University to benefit from special funds to finance innovative projects (scholarships, student-athlete status, navigation aid for the visually impaired, etc.) for the benefit of the entire university community.

## ◆ MAIN PROGRAMMES OF STUDY

The University's degree programs (LMD) cover all disciplines: Art, Literature, Languages - Law, Economics, Management and Political and Social Sciences - Social Sciences - Science, Technology and Health. Some courses can be followed as part of a Franco-German course and the University also offers degrees in which lessons are taught partly in English.

## ◆ RESEARCH

As a centre of excellence in fields such as biology, biotechnology, medicine, chemistry, materials physics, the University also plays a significant role in the development of research in the humanities and social sciences.

The University of Strasbourg has many researchers who are recognised as well as three Nobel prize winners among its lecturers (Jean-Pierre Sauvage, chemistry, 2016 : Martin Karplus, chemistry, 2013: Jules A. Hoffmann, physiology - Medicine, 2011: Jean-Marie Lehn, Chemistry, 1987) and a Kavli prize (Thomas Ebbesen, nanosciences, 2014).

## ◆ STRENGTHS

### Open to the world

Strong cooperation and exchange programmes with over 345 partner institutions in 54 countries around the world and participates in the Erasmus+ programme with over 450 partners.

The **International Student House** brings together all the services dedicated to International students and researchers.

- A trilingual reception centre (French / English / German)
- Personalised assistance in administrative procedures (residence permits, social security, housing assistance, etc.)
- Tours, outings and cultural events throughout the year
- French language courses for an international public
- Information brochures and open-access computers

### Eucor – The European Campus

Students enrolled at Unistra can take free classes in the five partner institutions (Strasbourg, Basel, Freiburg im Breisgau, Upper Alsace and Karlsruhe Institute of Technology) and thus develop language and intercultural skills. <http://www.eucor-uni.org/en> EPICUR

The University of Strasbourg has created the EPICUR alliance with 7 universities located in Amsterdam, Freiburg, Karlsruhe, Mulhouse, Poznań, Thessaloniki and Vienna.

## ◆ LOCATION

### Strasbourg, European capital

Strasbourg is a city of 500,000 inhabitants located in the heart of Europe, where 1 out of 5 residents is a student. It hosts several EU institutions. The city also hosts The World Forum for Democracy, the European Youth Encounter (EYE) and the European Bioethics Forum.

- A architectural and historical heritage, listed as a UNESCO World Heritage sites
- A Franco-German cultural mix
- A city of traditions especially during its Christmas market
- An intense cultural life, adapted to a student budget thanks to the 'Carte Culture
- A widespread selection of activities and sports outings

# UNIVERSITÉ DE TECHNOLOGIE DE BELFORT MONTBÉLIARD UTBM

A public university and a member of the CPU, CGE, and CDEFI, UTBM is one leg of a four-member network with the Université de Technologie de Troyes, the Université de Technologie de Compiègne and the university of Sino-European Technology of the university of Shanghai. UTBM's mission is education and research and transfer of technology. It grants the *diplôme d'ingénieur*, master's and doctorate. UTBM has a dynamic international policy with special programs for foreign students.

#### ◆ MAIN PROGRAMMES OF STUDY

- Energy: Production, Networks conversion and storage, transportation and embedded energy systems, energy-efficient buildings
  - Computer Science and Computer Engineering: Information Systems, Networks, Telecommunications, Embedded Systems
  - Mechanical Engineering and Design
  - Engineering and Management of Industrial Systems
  - Ergonomics, Design and Mechanical Engineering
- Curricular structure: semesters, Individually tailored curricula, transferable credits ECTS, 2 industry internships of 6 months each, programs for international students, training matched to the labor market.

#### ◆ RESEARCH

The Research laboratories form the core of the UTBM scientific activity with skills to create fundamental and technological knowledge in areas ranging from basic science to the humanities and offers an educational program driven by our research. The quality and variety of research work performed, the synergy between our researchers and the partnerships with national and international research organizations enhance the educational experience at UTBM and make it a unique center of excellence in research and education with programs in:

- Energy and fuel cell systems
- Systems and Transport
- Logistics and production
- Software engineering and telecommunications networks

- Materials, Processes and Surfaces
- Mechatronics - Methods, Models and Crafts
- Electronics Thermal Mechanics and Optics
- Metallurgy and Culture
- Research and Studies on Industrial Change, Technological and Societal

#### ◆ STRENGTHS

- Logistical services Pick-up to the airport, housing reservation and set-up, assistance with administrative steps, student integration support
- Academic services long intensive French language course before the beginning of each semester (August and February), French language courses during the academic year, science courses designed for foreign students, courses taught in English, personalized tutoring, a dedicated office for research and corporate internships.
- Extracurricular services Site visits, cultural and athletic activities, social life, international club, student mentors.

#### ◆ LOCATION

The university is located in the region Franche-Comté on the border with Germany and Switzerland, north and south. The region is one of the most densely populated areas of Europe with a strong workforce. Its geographic situation favors a wide range of mobility and exchanges, at the crossroads of three countries: Germany, Switzerland and France, and close to several major cities and airports accessible by road or by train: 45 minutes from the Basel / Mulhouse airport, 1h45 from the airport International Zurich (Switzerland) by road at 2:30 from Frankfurt (Germany) International Airport by road, at 2:20 by train from Paris, 200 km from Lyon. The area of Belfort-Montbéliard-hericourt is the first most industrial employment area in France, with for example the automotive industry: Peugeot Citroen (2nd car manufacturer), Faurecia, the Transport industry: Alstom Transport (high-speed TGV), the energy industry: GE energy Products, Alstom Power,.... UTBM is in the heart of this region, located in the Technology center of Belfort, with a dynamic work environment and an excellent quality of life.

#### IDENTITY FORM

- ◆ **Precise name of the institution**  
Université de Technologie de Belfort Montbéliard UTBM

COMPIÈGNE

# UNIVERSITÉ DE TECHNOLOGIE DE COMPIÈGNE

Université de Technologie de Compiègne (UTC), founded in 1972 as a new kind of public institution, combines the concept of a traditional university with that of a grande école specializing in engineering. UTC has an enrollment of 4,500, a faculty of 450, and an administrative and technical staff of 400. It is consistently ranked among the best engineering programs in France. UTC's international orientation attracts students from every continent. Dedicated support services and special programs help international students adjust quickly to life at UTC.

## ◆ MAIN PROGRAMMES OF STUDY

UTC offers the following degrees:

- diplôme d'ingénieur
  - research master
  - doctorate (through UTC's doctoral department)
- Specializations in the engineering curriculum include:
- Bioengineering
  - Computer engineering
  - Mechanical engineering
  - Process engineering
  - Mechanical systems engineering
  - Engineering of rural systems
- UTC also offers a cross-cutting program in the technologies and sciences of man.

## ◆ RESEARCH

Nine research units form the core of UTC's research endeavor. The research units operate in the exact sciences (mathematics), experimental sciences (mechanics, biochemistry, biology, computer science), and the humanities and social sciences (information and communication, economics, management, sociology). In support of these laboratories and the competitiveness clusters of which they are a major part (IAR and i-Trans), UTC has been selected by the French government for future-oriented investments, including an institute for low-carbon energy (known as IEED), a laboratory of excellence (Labex), two excellence teams (Equipex), an institute of technological

research (IRT), and a corporation specializing in accelerated technology transfer (SATT).

## ◆ STRENGTHS

- A month before the beginning of each academic year students may elect to participate in a free, intensive 4-week course in French as a foreign language
  - Housing at UTC is typically reserved for students in advanced through CROUS and ALESC.
- Each student receives a customized welcome (taxi hired by UTC, welcome guide, help to open an account quickly and receive a no-fee bank card, facilities for acquisition of residency permits. special week-long program of activities)
- Help in locating internships

## ◆ LOCATION

Compiègne is a town of 43,000 inhabitants located 80 km north of Paris. Convenient to several airports (Paris Charles de Gaulle, Paris Orly, Paris Beauvais) and just 45 minutes from Paris by direct train or autoroute A1, a rich history and a national forest adjacent to the town provide a pleasant setting for this small university town.

## IDENTITY FORM

PARIS (CRÉTEIL)

# UNIVERSITÉ PARIS-EST CRÉTEIL VAL DE MARNE

With 7 faculties, 4 institutes, 3 schools, 1 observatory and 32 research laboratories, the Université Paris-Est Créteil Val de Marne (UPEC) has been active in all fields of knowledge since 1970.

A major player in the dissemination of academic, scientific and technological culture, the institution provides a wide range of training in more than 600 academic programs in all subjects, from the DUT to the PhD level.

It hosts more than 36,000 students, 10% of whom are international students.

## ◆ MAIN PROGRAMMES OF STUDY

The training offer spans over 5 main areas:

- Law, Economics, Management
- Literature and Languages
- Humanities and Social Sciences
- Science and Technology
- Health

## ◆ RESEARCH

UPEC promotes a transversal approach, a source of creativity and innovation, to address social challenges. Research is based on 32 laboratories and 8 doctoral schools and is structured around 8 main areas:

- Biology and health
- Chemistry and Materials Science
- Law and Political Science
- Economics and Management
- Humanities and Social Sciences
- Environmental Sciences
- Information and Communication Science and Technology and Mathematics
- Urban Planning

Internationally mobile PhD students and researchers can be informed and guided before their arrival and during their stay in France by Acc&ss Paris-est.

## ◆ STRENGTHS

- A multidisciplinary university of the Greater Paris area
- Cutting-edge research
- Strong ties with the business community
- A globally oriented university

15 Degree programs taught in English.

The Department of Teaching French Language, Culture and Institutions (DELCIFE) offers a wide range of courses in French as a Foreign Language.

UPEC has been awarded a 2-star label in the context of the national welcome program for international students, Choose France.

## ◆ LOCATION

The main campus is located in the city of Créteil, South East of Paris, 25 minutes from the centre of the French capital.

## IDENTITY FORM

VILLETANEUSE

# UNIVERSITÉ SORBONNE PARIS NORD

Founded 50 years ago, Sorbonne Paris Nord University (USPN), ex-Paris 13 University, is one of the thirteen universities emerging out of the Sorbonne. Today, it has 23,500 students in initial or continuing education, from undergraduate to doctoral levels, and 1,200 teachers. Its five campuses are located in Villetaneuse, Saint-Denis, Bobigny, La Plaine St-Denis and Argenteuil. The USPN is member of Sorbonne Paris Cité Association and the Campus Condorcet. The university has nearly 250 programs leading to State-recognised diplomas and some fifty others own university diplomas. The university includes 5 faculties, 1 scientific institute and 3 Institutes of technology. The USPC has made international relations one of its priorities and it maintains partnerships with many renowned universities in Europe and throughout the world. Each year more than 120 nationalities are represented in its student body. Numerous cultural, artistic and athletic activities also contribute to campus life.

## ◆ MAIN PROGRAMMES OF STUDY

- Humanities, Human and Behavioural Sciences: Psychology, History, Geography, Literature, Languages, Linguistics, Education, Ethology
- Law and Political Science: Public Law, Private Law, Business Law, European and International Law, Economic and Social Administration, Political Sociology, Public Action, International Relations and Exchanges
- Science, Technology, Health: Mathematics, Computer Science, Chemistry, Materials, Process Engineering, Electronics, Signal Processing, Life Science, Medicine, Public Health and Social Services Management, Health and Society, Physical Education
- Economics and Management: Banking, Finance, Economics and International Finance, Business and Administrative Management
- Culture and Communication: Information and Communication Fields, Information,

Communication and Arts: Policies and Industries.

## ◆ RESEARCH

With more than 1,700 graduate students and more than 800 research professors and researchers, the Sorbonne Paris Nord University constitutes a major centre for academic research in the north of Paris. Covering practically all disciplinary fields, it combines fundamental research and development in order to create recognised 2 doctoral schools and 33 laboratories, including 14 labeled by CNRS (national scientific research Center) by the INSERM (national Institute of health and medical research).

## ◆ STRENGTHS

The reception, guidance, integration and academic success of the students are the primary objectives of the Sorbonne Paris Nord University. To these ends, many services and resources are placed at their disposal on the 4 campuses:

- 3 libraries
  - Information and Orientation Centre (VOIE)
  - Professional insertion Center (Baip)
  - Cultural and artistic activities
  - Varied sports activities
  - Practical assistance with housing, work placements, employment search
  - Language Centre for further training in languages, through self-directed training or in small-group tutorials
- The four campuses of the Sorbonne Paris Nord University are located in the North of Paris, in Villetaneuse, Saint-Denis and Bobigny and are served by public transportation.

ANGERS

# UNIVERSITÉ ANGERS

Founded in the Middle Ages, the Université d'Angers was reestablished in its present form in 1971. A comprehensive university, the Université d'Angers offers a full range of traditional academic programs, as well as many innovative choices. The university consists of 3 campuses in Angers (Belle-Beille, St Serge, and Santé), as well as branches in Cholet, Saumur and les Sables d'Olonne. More than 24.000 degree students choose from among the university's varied career-oriented programs.

## ◆ MAIN PROGRAMMES OF STUDY

- The university's major faculties (academic divisions) are letters, languages, and humanities; law, economics, and management; science; Health; ESTHUA (Tourism, hotel administration and culture).
- The university's technical institute (IUT) consists of 6 departments: public administration and business management, bioengineering, merchandising, engineering, mechanics and industrial automation, electrical engineering and industrial computing, social work
- Polytech Angers, institute of engineering science and technology, is affiliated with the university
- Institut d'Administration des Entreprises (IAE, Institute of Business Administration).

## ◆ RESEARCH

- 5 research clusters (health, plant science, materials, maths-STIC, Languages, Humanities and Social Sciences).
- 4 research domains (information and communication sciences and technologies: mathematics: humanities and social sciences: law, economics, and management). The university participates in several national competitiveness clusters (plant cluster, Atlantic biotherapy cluster, child cluster).

## ◆ STRENGTHS

Services are a source of strength. Consider the following examples.

- French as a foreign language: The university's French language center offers courses for beginners as well as intermediate and advanced speakers. The center is a member of ADCUEFE, the French association of university centers for the study of French as a foreign language.
- InfoCampus is the information office opened to all University students.
- European and international orientation.
- Quality of campus life: Students also enjoy access to excellent athletic facilities. The university's preventive medicine and wellness service is dedicated to the physical, mental, and social welfare of students.

## ◆ LOCATION

In the heart of the Loire valley, just 90 minutes from Paris, the city of Angers has a rich historic and artistic legacy. Highlights include the tapestries of the Apocalypse and of the Song of the World, the château of King René, museums, and the medieval city.

MONT-SAINT-AIGNAN

# UNIVERSITÉ ROUEN NORMANDIE

The University of Rouen Normandie in figures:

- 33,000 students
- 3,500 foreign students;
- 2500 staff
- 39 research units
- 1,500 teacher-researchers and researchers;
- 850 PhD students

Created in 1966, the University of Rouen Normandie is a university composed of:

- 6 faculties
- 2 Technical Institutes
- 1 Administration school
- 1 Management School

It is characterized by a rich offer of multidisciplinary training.

## ◆ MAIN PROGRAMMES OF STUDY

The university offers more than 100 programs in the following fields:

- Biology, Health, Environment
- Chemistry
- Law
- Economics, Management
- History, Heritage, Languages
- Humanities and social sciences
- Mathematics, computer sciences, system engineering
- Physics, Engineering, Materials, Energy

## ◆ RESEARCH

Backed by five thematic clusters, research at the University of Rouen Normandie is driving scientific cooperation:

- Energy, Propulsion, Matter Sciences, Materials
- New technologies in chemistry and biology applied to health and well-being
- Humanities, Culture, Societies
- Digital Sciences
- Land-Sea Continuum

The University of Rouen Normandie has 39 research units, attached to 9 research federations labeled by the CNRS. They are also associated with 3 federations labeled by the Ministry of Higher Education, Research and Innovation.

The University of Rouen Normandie also has 4 technology platforms and 2 foundations.

## ◆ STRENGTHS

The University of Rouen Normandie is labeled "Bienvenue en France" and has implemented actions to strengthen the integration of its international students.

The University of Rouen Normandie has a proactive international policy allowing its students to carry out international mobilities with one of its 200 partners.

## ◆ LOCATION

Strategically located halfway between Paris and the sea, 1h away from the English channel, 1h30 away from Paris, Rouen is a very famous middle age city, birthplace of Impressionism and an inspiration for countless artists, painters and authors.

The University of Rouen Normandie is an institution integrated into its territory. It has 7 campuses mainly spread over the entire territory of the Rouen Normandy metropolitan area.

The University of Rouen Normandie is an actor of its territory, partners of many local companies specialized in various fields such as aeronautics, pharmaceutical industry...

# AIX MARSEILLE UNIVERSITÉ

Aix-Marseille  
université  
Socialement engagée

MARSEILLE ET AIX-EN-PROVENCE

Since its creation, a result of the merger of the three universities of Provence, Aix-Marseille University has been open to the international scene. This institution is currently the largest French-speaking university in the world with 80,000 students, including 10,000 international students.

AMU is ranked among the top 10 universities in France and one of the 150 best in the world according to the Shanghai 2021 Ranking.

The university stands out for its multidisciplinary educational offer and the strength and dynamism of its research.

As part of its commitment to strengthening its international outlook, Aix-Marseille Université pays particular attention to welcoming its international students. In 2019 AMU obtained the Bienvenue en France label, which attests to the quality of its welcome services for international students.

## ◆ MAIN PROGRAMMES OF STUDY

Aix-Marseille Université is widely endowed with fundamental, professional and research programmes (Bachelors, Masters, Doctorates, Professional Bachelors, Engineering Diplomas, State Health Diplomas, Bachelor of Technology "BUT"). AMU offers a wide range of high-quality trainings in the main subject areas:

- Arts, Humanities, Languages and Social Sciences
- Law and Political Science
- Economics and Management
- Health
- Science and Technology
- Teaching, Education and Training
- Multidisciplinary.

## ◆ RESEARCH

As an intensive research university Aix-Marseille Université makes a large contribution to the knowledge economy and the dissemination of science, carrying out disciplinary and interdisciplinary fundamental research with societal impact. Aix-Marseille Université is partner with the main actors of national research, such as CNRS, CEA, IRD, INRAE and INSERM, with whom it works tirelessly to contribute to the development

of science and research. Witness its structuring around 113 units, 9 research federations, and some fifty accredited platforms. In addition, its 15 interdisciplinary institutes provide the necessary gateways between research and education.

5 major fields are mainly covered: energy; environmental and universal sciences; life and health sciences; advanced sciences and technologies; and humanities and social sciences.

Aix-Marseille Université is also a research-intensive university of international standing. As a result of its dynamic research, AMU reckon on more than 3,400 doctoral students, 39.5% of whom are international, coming from over 100 countries.

## ◆ STRENGTHS

-A wide range of training courses covering all disciplinary sectors, in convergence with research of excellence recognised at national and international level.

-Strong links with local stakeholders to ensure the professional integration of its graduates and thus contribute to the development of the region.

-Its commitment to better welcoming international students. In 2019, Aix-Marseille Université was awarded the "Bienvenue en France" label for the quality of its services in providing a welcome to international students, making it one of the first 25 institutions in France to receive this label.

-A varied and dynamic student life thanks to the diversity of cultural and sports services offered by the university. Group practices, free artistic workshops, concerts, events and more than 80 sports activities contribute to the well-being of AMU students.

## ◆ LOCATION

Aix-Marseille University is uniquely located in the heart of Provence. Between the sea and the mountains, AMU has 5 campuses and 58 sites spread over 9 towns and 4 departments in one of the most beautiful regions of the country, the South Region.

The region's attributes contribute to the quality of student life at AMU, with favourable conditions for the development of each student. Wishing to make the most of this richness, Aix-Marseille University offers its students a wide range of activities inviting them to discover it and make it truly their own.

CERGY PONTOISE

# CY CERGY PARIS UNIVERSITÉ

CY Cergy Paris University was created in January 2020 following the merger between University of Cergy Pontoise and EISTI (School of Engineering).

CY Cergy Paris University has also integrated ILEPS and EPSS as school components and has also a strategic partner (ESSEC Business School).

**A distinctive identity**

- 223 degree programs in Bachelor, Masters and Doctoral levels in most of the major fields of learning
- 25 000 students in initial or continuing education and training
- 4 000 foreign students
- Member of CY Alliance
- Member of the European University EUTOPIA

## ◆ MAIN PROGRAMMES OF STUDY

Multidisciplinarity:

### 1 undergraduate school (CY Sup)

#### 5 graduate schools :

- CY TECH : specialized in Science, Engineering, Economics and Management, along with the Engineering programs of the ex-EISTI.
- CY ARTS & HUMANITIES : specialized in Languages, History, Geography and associated with the Paris-Cergy National Graduate School of Arts, the National Graduate School of Architecture of Versailles, the National School of Landscape Architecture and also the National Heritage Institute.
- CY EDUCATION : the National Institute of Teaching and Education, the EPSS (Social Work) and the ILEPS (Sports).
- CY LAW & POLITICAL SCIENCES.
- ESSEC Business School

### 1 IUT (University Institute of Technology)

### 1 Institute of Advanced Studies

## ◆ RESEARCH

- 22 research teams, including 9 associated with the Cnrs (French National Research Centre).

- The Institute for advanced Studies (IAS) stimulates international scientific collaborations by the creation of a network of partnerships with laboratories in many countries. It organizes thematic cycles and working visits of researchers.

- Excellence laboratories: PATRIMA laboratory for material heritage (knowledge, preservation, transmission) and MME-D11 (economic and mathematical models).
- CY Cergy Paris Université manages 6 technology platforms.

## ◆ STRENGTHS

The university enjoys solid local, national and international recognition thanks to :

- 600 business partners.
- A wide range of vocational degrees (4th university in France).
- 484 bilateral agreements with foreign university partners in 56 countries.
- A French learning center certified by 'Quality FLE' for its special French Language and Culture Course Center.
- A foreign students office which provides services such as an International Welcome Desk for international students (accommodation, health service etc...).
- International Exchanges programs.
- The teacher training college (INSPE) provides academic and professional teacher training from nursery to secondary school level.
- The Institute of Political Studies (IEP) located in Saint Germain en Laye is the 10th IEP to open in France.
- CYU provides several masters in Engineering thanks to its "CYTech Grande Ecole".
- With 13 higher education institutions, CYU is an active member of CY Alliance (Research and Higher education cluster).

## ◆ LOCATION

The university operates in three administrative departments (Val-d'Oise, Hauts de Seine and Yvelines) reinforcing its status as a dynamic university cluster for the west part of the Ile-de-France region.

LILLE

# UNIVERSITÉ DE LILLE

The University of Lille, a multidisciplinary institute of excellence at the heart of northwestern Europe, boasts an exceptional cultural and scientific heritage that is an integral part of the history of the Hauts-de-France region. With 78,000 students (9,900 of whom are from overseas), a staff of 7,200, 64 research units and a range of courses that cover all academic disciplines, it is a key stakeholder in the region for education, research and innovation and through its contributions to societal issues.

The University of Lille is also the beneficiary of a far-reaching national plan to finance excellence (I-SITE) allowing it to use special funds to run innovative projects.

## ◆ MAIN PROGRAMMES OF STUDY

The University of Lille's bachelor's, master's and doctoral courses cover nearly all academic fields: Arts literature & languages; Law, economics & management; Healthcare; Humanities & social science; Science & technology; Sports science & techniques.

The University also offers 26 courses fully taught in English and 30 run on a bilingual basis. It offers 36 dual diploma courses and 6 Erasmus Mundus master's degrees.

## ◆ RESEARCH

Covering all areas of knowledge, the University of Lille has been recognised for the quality of its cutting-edge multidisciplinary research and has been awarded prestigious labels and funding at a national level:

5 laboratories of excellence (Labex), 7 facilities of excellence (Equipex). A diverse range of scientific resources and 14 technological platforms complement its research environment. Within the region, it benefits from several bodies, networks and initiatives that contribute to the effectiveness and multidisciplinary of its research and promote it from a socio-economic perspective.

It works as part of a network with 5 technology parks and 7 competitiveness clusters where businesses and laboratories collaborate on innovative projects in cutting-edge sectors. Research training is a major focus at the University of Lille. The PhD programmes run in its laboratories and 6 Doctoral Schools enable young researchers to complete their thesis as part of renowned research teams, and the University facilitates international opportunities and operates a robust policy in support of joint supervision initiatives. The Doctoral Schools also monitor the employment of successful doctoral researchers after graduation.

## ◆ STRENGTHS

### International openness:

The University of Lille is determined to develop a robust policy as a host institute, and it develops and facilitates international cooperation and exchanges through its many partnerships and exchange programmes with the top higher education institutes in the European Union and elsewhere. It also supports and encourages incoming and outgoing student mobility through its MOBILEX grant scheme.

### A new cross-border network:

At the heart of northern Europe, the University of Lille is committed to a process to create a new cross-border network to facilitate exchanges both in teaching and research.

### Teaching innovation:

The key to effective learning is ensuring that students get involved: the University offers a pedagogic platform with online classes, videos, interactive applications and innovative, modular classroom spaces that can be adapted to different teaching approaches.

The University of Lille also endeavours to ensure its students are informed citizens and economic stakeholders capable of adapting to changes in society. Particular efforts are made to run projects linked to the local region that promote campus life, offering campus-based activities with a focus on social responsibility (e.g. solidarity grocery stores, refugee hosting schemes, support for disabled students).

## ◆ LOCATION

The University of Lille is located in the capital city of a region with a population of 6 million: Hauts-de-France, which lies at the heart of northwestern Europe in close proximity to several major European capitals and other cities (Paris, London, Brussels, Amsterdam, Antwerp, Cologne, Dortmund, etc.). With links to many international transport networks (in particular Paris-Roissy, Brussels and London airports), it can expand its circle of influence worldwide, as is clear from its international collaboration at the highest level with more than 50 countries.

Its campuses are situated at 8 locations across the metropolitan area. Staff and students benefit from a very dense public transport network, with all campuses and research sites located less than 5 minutes from a metro station and less than 30 minutes from one another.

# UNIVERSITÉ GRENOBLE ALPES

**UGA**  
Université  
Grenoble Alpes

GRENOBLE, VALENCE

Université Grenoble Alpes (UGA) is both firmly anchored at the local level and has a solid international reputation.

Its foundation stems from the aggregation of the former Université Grenoble Alpes (which was made up of 23 faculties) and the most prestigious higher education and research institutions in Grenoble: Grenoble INP (School of Engineering), Sciences Po Grenoble (School of Political Science and Public Policy) and ENSAG (Grenoble School of Architecture).

A comprehensive, global university, the UGA was created in order to respond to the challenges of higher education and the world today. Enrolling about 55,000 students each year, 3,000 of them study at the doctoral level. The university offers academic programs in all disciplines, and represents a major center for research and innovation in the heart of Europe.

The UGA is internationally engaged, enrolling over 8,500 international students per year, and creating joint teaching and research projects with our partners worldwide.

## ◆ MAIN PROGRAMMES OF STUDY

The UGA offers a wide range of programs, open to all qualified students regardless of nationality. Programs exist at all levels, ranging from undergraduate and graduate degrees to professional and certificate programs. We offer targeted services to support students with specific needs: student athletes, students with disabilities, refugees, and international students. In addition, we have created a variety of innovative programs preparing students for study and work abroad. The UGA offers student exchanges, short-stay programs, programs taught in English, and programs which are designed to meet the challenges of today's global society.

## ◆ RESEARCH

Internationally ranked, the UGA is a research leader in disciplines ranging from nanotechnology, to neuropsychology, to artificial

intelligence, to the digital humanities. The UGA was ranked in the top 100 in the 2020 Shanghai rankings

The university also enjoys close ties to the thriving international business and industry in Grenoble, producing practical research and new technologies which make it Europe's 28th most innovative university (according to a 2018 Reuters report). French and European research facilities nourish and enrich the culture of innovation and discovery at the university and throughout Grenoble.

## ◆ STRENGTHS

- A world-renowned center for French as a Foreign Language: CUEF de Grenoble
- Innovative Masters Programs, including nearly 50 masters taught in English
- Close ties to national and international research centers such as the Minatec innovation cluster, the Institut Laue-Langevin, or the European Synchrotron Radiation Facility
- Significant financial support for research, teaching, and learning, including the IDEX award-prestigious national excellence-based funding
- Opportunities and funding for international mobility (students, staff and faculty)
- Specific welcome services for international students, PhD students and researchers.
- Grenoble is consistently chosen as one of the top cities in an annual poll published by L'Etudiant
- 30 different sports, including mountain sports such as skiing, hiking, climbing, and more, are available for all students

## ◆ LOCATION

Nestled in the Alps, the UGA is located in the southeast of France, not far from the Swiss and Italian borders. A pleasant, mid-sized city, Grenoble offers easy access to Paris, the Mediterranean Coast, and the ski slopes. With a lively nightlife, a diverse array of community engagements and activities, and a rich historical and cultural heritage, Grenoble offers an excellent quality of life to its inhabitants. With high-quality schools, easy public transportation and 320 km of bike paths, and an unparalleled natural setting, Grenoble is a great choice for students and families alike.

# UNIVERSITÉ PARIS-SACLAY

université  
PARIS-SACLAY

SAINT-AUBIN (91190)

Université Paris-Saclay is founded by 14 outstanding academic and research institutions working together on a common project, pooling courses and research of the highest national and international standard at the heart of a vast ecosystem equipped with high-technology facilities and companies, Southwest of Paris.

The 14 member institutions of Université Paris-Saclay 2020

Higher Education Institutions

CentraleSupélec

Ecole normale supérieure de Paris-Saclay

Institut d'Optique Graduate School

AgroParisTech

Université Paris-Sud

Université de Versailles-Saint-Quentin en Yvelines

Université Evry-Val-d'Essonne

National Research organisations

Centre national de la recherche scientifique Commissariat à l'énergie atomique et aux énergies alternatives

Institut des hautes études scientifiques

Institut national de la recherche agronomique Institut national de la recherche en informatique et automatique

Institut national de la santé et de la recherche médicale

Office national d'études et de recherches aérospatiales

## ◆ MAIN PROGRAMMES OF STUDY

We offer 527 mutualised Master's tracks to over 9,000 students from 127 countries (<https://www.universite-paris-saclay.fr/en/formation/master>), and over 100 licence's tracks (<https://www.universite-paris-saclay.fr/en/node/42117>).

## ◆ RESEARCH

Working in one of the 300 laboratories of the Paris-Saclay technological valley, our teams of researchers produce over 12,000 scientific publications per year and have an international standing in many fields such as mathematics,

laser and particle physics, astrophysics, neuroscience, nanoscience, material sciences, chemistry, neuroscience, plant sciences, engineering, economics and business, law, political and social sciences.

Université Paris-Saclay can boast of having 10 Fields medallists, 2 Nobel laureates and of being the 1<sup>st</sup> in France and 3<sup>rd</sup> in Europe in the number of awarded ERC grants.

Université Paris-Saclay offers a wide variety of PhD programmes unequalled in France, ranging from fundamental sciences to applied sciences, with an emphasis on cross-cutting teaching and international cooperation.

## ◆ STRENGTHS

- 14 outstanding member institutions
- 16-20 projected Shanghai ranking
- 15% of French R&D
- 3<sup>rd</sup> in Europe for ERC grants
- 10 Fields Medallists
- 45 international Master's programmes
- 160 international Master's scholarships (€11,000 per academic year)
- 20 doctoral schools
- 9,000 researchers and professors
- We speak English
- We have modern facilities, and Paris is just a stone's throw away.

## ◆ LOCATION

Located between Paris and Versailles, Université Paris-Saclay is in the heart of a major territorial development project conceived for a threefold development of business, research activity, and quality of life for residents.

It is mobilising industry players on both Essonne and Yvelines départements to stimulate growth around strategic sectors (aerospace-defence-security, energy, mobility, ICT, health).

BORDEAUX

# UNIVERSITÉ DE BORDEAUX

 université  
de BORDEAUX

The University of Bordeaux is a multidisciplinary, research-focused, international institution.

Ranked within the top 11 universities in France for the quality of its academic courses and research, the University of Bordeaux was awarded the "Initiative of Excellence" by the French government in 2011, and was one of the first universities to obtain confirmation of this program in 2016.

It welcomes more than 57,000 students, of which almost 2,000 are doctoral students and 7,200 are international students. Around 5,900 staff members are employed by the University, of which 4,000 are academic and research staff.

## ◆ MAIN PROGRAMMES OF STUDY

Students may choose from a multitude of curricula that lead to national degrees. These curricula are organized around four major scientific domains:

- > **Science & Technology**
- > **Law, Political Science, Economics, Management**
- > **Life & Health Sciences**
- > **Social & Human Sciences**

A large range of qualifications are possible: 150 Bachelor (including vocational) programs, over 250 Master specialties, 115 national diplomas in health, as well as a national diploma in oenology. The university has also developed a wide range of international study programs that are taught in English (or other languages) and that offer students the possibility of studying abroad and/or completing joint or double degrees. A leading university in France for participation in the Erasmus Mundus program, the University of Bordeaux offers 20 EU-labeled study programs of excellence.

## ◆ RESEARCH

Research is organized around eleven departments:

- > **Social sciences of contemporary changes**
- > **Behavior, organizations and policy evaluation**
- > **Law and social transformations**
- > **Bordeaux Neurocampus**
- > **Biological and medical sciences**

- > **Public health**
- > **Health sciences and technologies**
- > **Environmental sciences**
- > **Engineering and digital sciences**
- > **Material and light sciences**
- > **Archeological sciences**

These departments group together 70 research laboratories that are under joint supervision with national research organizations.

A **Graduate Research School** coordinates the entire field of doctoral studies in collaboration with the eight doctoral schools that ensure support and guidance for doctoral students. Several Graduate Research Programs have been launched within the domains of neuroscience, digital public health, light sciences and technologies, cancer biology, functional materials and cardiology.

## ◆ STRENGTHS

> **Rankings:** the University of Bordeaux is ranked n°90 in the Times Higher Education Young University Ranking and 201-300 in the Times Higher Education Impact Ranking (2021), n°24 in Reuters Europe's Top 100 Innovative Universities (2019) and 201-300 within the Shanghai General Ranking (2021).

> **Major research programs:** BPS - Bordeaux Plant Sciences / BRAIN\_2030 - Bordeaux Region Aquitaine Initiative for the future of Neuroscience / HOPE - Understanding Human Well-being and Behavior for better Policies & Societies / Human Past / IPORA - Interdisciplinary Policy-Oriented Research on Africa / LIGHT - Light sciences and its applications / PPM - Post-Petroleum Materials.

> **Industrial partnerships** with the various local economic sectors: aeronautics, space, chemistry, health, IT, optic/laser, forestry, wine.

## ◆ LOCATION

The University of Bordeaux has one of the **largest campuses** (187 hectares) in Europe. It is composed of several sites that are located near to the city and that offer a broad range of services and amenities. 135 student associations exist and participate in the organization of a wide range of cultural activities throughout the academic year. A campus of excellence for sports as well, since 2010 Bordeaux is the **n°1 French university for sports**, ranking n°1 within Europe.

# UNIVERSITÉ PARIS II PANTHÉON-ASSAS

SORBONNE-ASSAS INTERNATIONAL LAW SCHOOL

Université Paris II Panthéon-Assas, considered as France's first law university and home to the origins of French Law, holds 800+ years of history. It has developed a leading reputation in France as well as internationally for the quality of its teaching and research.

The university is committed to providing its nearly 18,000 students with first-class education, in all areas of the Law, Political Sciences, Economics, Management, Information and Communication Sciences. Its professors are unanimously recognized as highly qualified specialists in their fields of expertise both in France and abroad.

Université Paris II Panthéon-Assas' extensive (300+) partnerships with prominent international universities as well as with major financial and industrial firms today ensure our graduates a solid foothold in the corporate world, true to its versatile nature translated through the institution's vision.

Our academic offer includes undergraduate and postgraduate degrees as well as LL.B.'s, LL.M.'s, Masters and PhDs.

In line with its internationalization strategy, the University launched in 2011 the Sorbonne-Assas International Law School; a brand which houses 4 campuses across the world in Dubai, Mauritius, Paris and Singapore.

## ◆ MAIN PROGRAMMES OF STUDY

Law, Political Sciences, Economics, Management, Information and Communication Sciences

## ◆ RESEARCH

Université Paris II Panthéon-Assas has:

- 5 doctoral schools, 4 of which in Law
  - 24 research centers and more than 250 research fellows
  - 1,000 doctoral candidates of which 84% in Law and Political Science
  - 100 PhD theses defended every year
  - A research budget of over 1,1 Million€ per year
- Overseas students can also pursue their PhD thesis under joint supervision (co-tutelle) with a supervisor in a partner University.

## ◆ STRENGTHS

- France's first law university and home to the origins of French Law, holds 800+ years of history in training lawyers, judges and research fellows
- International presence: 4 campuses in Dubai, Mauritius, Paris and Singapore; extensive (300+) partnerships with prominent international universities and organisations
- Assas Learning Center: the first of its kind installed in France, offers students and professors a unique place to live and work
- 130+ professional courses (Master's, Bachelor's)
- 100,000+ alumni network worldwide

## ◆ LOCATION

Paris  
Dubai  
Mauritius  
Singapore

PARIS

# UNIVERSITÉ PSL (PARIS SCIENCES & LETTRES)

PSL  
UNIVERSITÉ PARIS

Université PSL, located in the heart of Paris, provides the ideal academic environment for breeding excellence, creation and innovation, with 4,500 faculty researchers, 181 laboratories, 17,000 students, and some dozen business incubators, fablabs and co-working spaces for student entrepreneurs.

Arts and sciences, engineering, humanities and social science form the core of the university's ambitious intellectual and scientific vision. As a selective, global, interdisciplinary university, committed to promoting talent and equal opportunity, PSL is creating the world of tomorrow.

PSL is among the best 50 universities in the world according to the Times Higher Education (THE) and the QS Rankings in 2018 : they also ranked PSL the 4th among Young Universities.

## ◆ MAIN PROGRAMMES OF STUDY

### Undergraduate study at PSL

- Innovative and premium education (CPES Multidisciplinary undergraduate degree, Bachelor's degrees at Université Paris-Dauphine, etc.)
- Cross-disciplinary teaching
- Low student-teacher ratio
- Progressive specialization through 15 majors: Mathematics, Law, Economics, History, Philosophy, etc.
- Exposure to France's top graduate schools (Grandes Écoles)

### Master's degree and Post-Master's education

- Selective, world-class diplomas recognized by your future employers
  - Immersion in some of the most renowned research centers and schools of art and design
  - Academic experience in every field of knowledge: Sciences, Engineering, Humanities and Social Science, the Arts
  - 40 tracks available to graduate students
- Access to Grandes écoles and schools of engineering (ESPCI, MINES ParisTech, Chimie ParisTech, École normale supérieure, École nationale des chartes)
- Graduate degrees from Arts schools in music, film, fine and applied arts

### Doctoral degrees at PSL

- 30 doctoral schools and innovative programs (Science, Arts, Creation and Research SACRe – PSL-ITI – Institute of Technology and Innovation)

- Immersion in a cross-disciplinary research environment (science, humanities, social science)
- Equipment and resources designed for success: cutting-edge laboratories, digital collections, libraries, etc.
- 3,800 doctoral students, including 46% international students

## ◆ RESEARCH

### Research at PSL includes

- 4,500 researchers
  - 181 cutting-edge labs
- Finding every day new insight about the major issues of our world. Training programs at PSL stem from their methods and their work.

### Innovation

PSL's wide-ranging expertise across all fields of study provides opportunities for groundbreaking interdisciplinary investigation. The university encourages out-of-the-box thinking and gives free reign to creativity and innovation. PSL is an intellectual hub whose expertise is sought after and whose scientific and cultural contributions are valued by the private and public sectors.

## ◆ STRENGTHS

- 9 world-class schools and institutes
- 10 associate members
- From undergraduate education to PhD
- Cross-disciplinary programs
- Focus on creation and innovation
- Effective collaborations between institutions at the center of Paris

**PSL members:** Chimie ParisTech, École nationale des chartes, École normale supérieure, École Pratique des Hautes Études, ESPCI Paris, Institut Curie, MINES ParisTech, Observatoire de Paris, Université Paris-Dauphine.

**Associate members:** Collège de France, Conservatoire National Supérieur d'Art Dramatique, Conservatoire national supérieur de musique et de danse de Paris, École des hautes études en sciences sociales, École française d'Extrême-Orient, École nationale supérieure des Arts Décoratifs, Beaux-Arts de Paris, IBPC-Fondation Edmond de Rothschild, Institut Louis Bachelier, La Fémis.

**Research centers:** CNRS, Inserm, Inria.

# INALCO

## INSTITUT NATIONAL DES LANGUES ET CIVILISATIONS ORIENTALES

Institut national  
des langues  
et civilisations orientales

The National Institute of Oriental Languages and Civilizations is a large public institution of higher education and research. Inalco's mission is to teach and research the languages and civilizations of Central and Eastern Europe, Asia, Oceania, Africa, the Near and Middle East, and peoples of the Americas, as well as history, geography, societies, political and economic systems, realities and cultural developments in the countries concerned.

Public university institute under the supervision of the Ministry of Higher Education and Research having the status of large institution, Inalco (formerly Languages O') is the direct heir to the School of Oriental Languages founded by the national convention in 1795. Over the centuries, Inalco has become a unique institution in the world, welcoming students and teachers from all walks of life. No institution offers in the same place such a diversity of courses, such expertise and such wealth of knowledge about the world today.

In total, more than one hundred languages and civilizations are taught in the framework of national diplomas (bachelor's, master's, doctorate) and establishment diplomas. Anxious to promote the integration of its students into the labor market, Inalco has also developed career-oriented courses in the fields of international business, intercultural communication, language teaching, international relations, computer-language-multilingual texts. The institute also offers courses tailored to the needs of individuals, businesses and public services.

### ◆ MAIN PROGRAMMES OF STUDY

11 departments (Africa, South Asia, South East Asia and Pacific, Japan, China, Arab Studies, Eurasia, Hebrew Studies, Russian, Central and

Eastern Europe, Americas), license LLCER, 5 professional streams from L2 (management and international trade, international relations, language didactics, automatic language processing, intercultural communication), 8 masters' degrees (LLCER, 2 'International Business' masters, 5 'language trades' masters).

### ◆ RESEARCH

Research at Inalco combines cultural and disciplinary fields. Their crossroads, particularly innovative and scientifically fruitful, concern languages and civilizations that occupy today, more and more, the center stage - Africa, Middle East, Asia, until the Arctic - and which are at the heart of the major issues of our century. The research relies on 15 teams, often in partnership with research organizations, a high-level doctoral training, and international presses. It also benefits from a project engineering and valorization system.

With 15 research centers, Inalco develops a research policy rooted in scientific collaborations with its national and international partners. With a unique profile, characterized by the articulation between disciplines of human and social sciences and cultural areas, Inalco is in charge of all mixed research units in the Paris Areal Linguistics and concentrates renowned hospitality teams such as the CNRS and IRD.

# ESCP BUSINESS SCHOOL

ESCP Business School was founded in 1819. The School has chosen to teach responsible leadership, open to the world and based on European multiculturalism. Six campuses in Berlin, London, Madrid, Paris, Turin and Warsaw are the stepping stones that allow students to experience this European approach to management. Several generations of entrepreneurs and managers were thus trained in the firm belief that the business world may feed society in a positive way.

This conviction and ESCP's values - excellence, singularity, creativity and plurality - daily guide our mission and build its pedagogical vision.

Every year, ESCP welcomes 8000 students and 5000 managers from 120 different nationalities. Its strength lies in its many business training programmes, both general and specialised (Bachelor, Master, MBA, Executive MBA, PhD and Executive Education), all of which include a multi-campus experience. It all starts here.

#### Financial Times Worldwide Rankings:

TOULOUSE

# TBS EDUCATION

Founded in 1903, TBS is amongst the prestigious 1% of business schools with the "triple crown" of international accreditations: AACSB, AMBA and EQUIS and proud member of the French Conférence des Grandes Écoles. Located in 4 dynamic regions TBS leverages its research and innovation to train women and men through lifelong learning leading them to develop into collaborative, agile and responsible decision makers. TBS provides students with analytical skills, a professional network and innovative pedagogical approach coupling theoretical contributions and project-based learning. TBS meets the most demanding international academic standards and continues to engage the industry, leading to rapid student employment upon graduation.

## ◆ MAIN PROGRAMMES OF STUDY

**Bachelor in Management:** three-year program with a highly professional and intercultural vocation, the aim of which is to equip future graduates with managerial skills adapted to national and international economic requirements.

**Master in Management:** two-year program which trains expert managers, for all businesses, anywhere in the world. It is characterized by its academic rigor and coherent structure, allowing a gradual acquisition of skills with an international dimension.

**Masters of Science (MSc):** 12-month programs positioned in constantly evolving functional or sectoral areas. The objective is to train young graduates or experienced professionals by providing high-level specialized knowledge and skills enabling them to gain access to, or evolve in, high value-added occupations, enabling them to match their ambitions with current and future business needs.

**Global Executive MBA:** delivers a world-class education for experienced managers looking to develop their international management competencies and leadership. This high-end program allows students to pick specialized tracks from the Strategic Management MBA or Aerospace MBA.

**DBA:** gives decision makers the tools to create a hypothesis and through the scientific method, analyze a problem in its entirety. Cultivating

innovation and originality, experienced managers learn how to create a competitive advantage.

## ◆ RESEARCH

With more than 20 years of research and a team of 105 researching professors, TBS publishes in elite academic journals, carries out research with partners from KPMG, Airbus Group and European Commission and collaborates with international academics.

The **TBS Research Center**, groups together five thematic research laboratories:

- Accounting, Auditing & Performance Management
- Entrepreneurship & Strategies
- Finance, Economics & Econometrics
- Social & Innovation Marketing
- Work, Employment & Health

Supported by the aerospace industry, within the research center, we find the Sirius Chair which is devoted to law and management within the space sector.

## ◆ STRENGTHS

### International influence:

- More than 220 partner universities in 57 countries
- 22 double-degree agreements with top academic institutions worldwide
- 50% of the faculty is international

### Professional network:

- 49,000 TBS Alumni graduates
- 104 multinational alliances and corporate partnerships

### Modern resources:

- TBS Library: 26,000 Books, 15,000 eBooks, 180 subscriptions 50,000 electronic magazines & 33 academic databases
- Innovative classrooms to reinforce collaborative learning

### Student life:

- Personal Career coaching
- French Language Courses
- Dedicated advisors for academic and personal assistance

## ◆ LOCATION

### Toulouse, Paris, Barcelona and Casablanca

TBS campuses are located within metropolitan areas with a recognized economic and cultural dynamism. They offer students a great opportunity to strengthen their language skills (French, English and Spanish) and to immerse themselves in a multicultural environment.

## IDENTITY FORM

- Executive MBA
- PhD Programme
- Summer Programmes

### ◆ RESEARCH

The majority of the faculty's research work takes place within the CEREFIGE research laboratory of University of Lorraine and focuses on three axes: Management, Behavior & Organization, Governance & Regulation, and Federating Innovation, Regions & Entrepreneurship.

### ◆ STRENGTHS

- Triple Accreditation: EQUIS, AMBA, AACSB
- At the heart of Europe with 3 modern campuses in Paris, Nancy and Berlin
- A unique Art-Technology-Management Spirit
- 14 international double degrees
- 3000 students every year including 38% of students from abroad
- 52% of professors with international backgrounds
- Strong Alumni network with 17 000 Graduates
- More than 120 partner universities around the world
- Pastoral care for international students

### ◆ LOCATION

Whether it is Paris La Defense, Nancy or Berlin, our campuses are in strategic locations close to businesses and areas of economic activity.

PARIS ICN Business School is located in the heart of the La Defense business district, alongside the head offices of major CAC 40 corporations.

NANCY With almost 48,000 students (1 in 3 residents) located nearby Germany, Belgium, and Luxembourg, and in midway between Paris and Strasbourg, the city of Nancy is naturally open to Europe.

BERLIN The capital of Germany and the country's largest city with 3.5 million inhabitants, Berlin shares all of ICN's values: it is a tolerant and multicultural city, which is committed to tackling current and future challenges.

PARIS

ISCOM

**iSCOM**  
 PARIS

ISCOM was founded in Paris in 1986 and is currently established in 8 different cities in France. The school has also developed a network of international partners (universities as well as companies). The school prepares students for all careers in communications.

#### ◆ MAIN PROGRAMMES OF STUDY

Title certified by the State level I - Brand Manager  
 The first cycle of studies – COMMUNICATION, CREATIVITY, DIGITAL

In **1st and 2nd years**, students develop their skills through an introduction to the various different subjects in the communications field, as well as knowledge of structures, institutions and companies and the startups environment. The **3rd year** offers the possibility to students to reinforce their skills in one of the following areas in communications : digital communications, companies and brands, advertising and marketing, politics and public, influence and events.

Ateliers and workshops enable students to advance their projects in Motion design, UX design, Webdesign, Brand creation, Advertising creation, Design & packaging.

The second cycle of studies – BRAND MANAGEMENT, CREATION, INNOVATION

The **4th year** offers a large range of specialisations : careers in influence and events : creation and digital: innovation and branding.

The **5th year** is a work-study year which covers the following areas of expertise : political communication, client experience, shopper marketing, design thinking and branding, digital creation, responsible communication, innovative communication of startups.

Thanks to ISCOM's close links with the professional world, the school offers its students great opportunities for internships in large agencies and for important brands, in all sectors, in France and abroad.

2 months in 1st year \* 3 months in 2nd year \* 1 semester abroad in 3rd year \* 6 months in 4th year.

- **The school brings together the most important actors in communications** during events : Communication Forum, collaborative

projects such as marketing game, audacity week, creative week, international week.

- **Varied pedagogical formats**, alternating between interactive classes, videoconferences, workshops, online classes, ateliers.

- **The school leads thought groups with its students** on branding and trends, laboratory of brands, think tanks ...

- **The students can develop their entrepreneurial project** within BusinessLab. They benefit from advice and networking.

#### ◆ STRENGTHS

- **Programmes** in line with changes in the sector.

- **A programme** taught entirely in English.

- **An innovative programme** for durable and responsible brands, integrating Design Thinking, EACA label.

- **A pedagogy centred on the student**, his professional project, quality of life.

- **A campus in the centre of Paris**, within easy access, with open and practical collaborative spaces, a pleasant environment.

- **A digital school**, IT project rooms, distance communication technology.

- **A school integrated within the professional environment**, open to the international world with more than 45 partnerships abroad.

- **Numerous student services**: internship office, help with job search, alumni, international service in charge of welcoming students coming from abroad.

- **A school life** which is animated and inviting.

# KEDGE BUSINESS SCHOOL

**KEDGE**  
BUSINESS SCHOOL

KEDGE Business School is member of the very exclusive club of business schools having triple accreditation: AACSB, EQUIS and AMBA. This global institution of business management offers 36 management programs for students and professionals. With 4 campuses in France, 2 campuses in China and 1 in Dakar, KEDGE BS has 14,800 students, 172 permanent faculty, 201 academic partners and 70,000 alumni.

'Transformation and innovation' are two main missions.

Companies have a major role in KEDGE BS's education. They are associated in every step of our students' curriculum and are an integral part of our ecosystem. They contribute strongly to the employability of our graduates.

The international dimension, research, the development of personal and professional skills, educational innovation and digital transformation are at the heart of the KEDGE BS strategy.

## ◆ MAIN PROGRAMMES OF STUDY

Recognized by French Ministry of Higher Education and accredited by Conférence des Grandes Ecoles (CGE), KEDGE BS offers management programs at both the undergraduate and master levels. KEDGE BS is the only establishment that has two master-level degrees having the special 'grade master' recognition: Grande Ecole program (Master in Management) and EBP International. The institution also exports programs abroad.

The main programs:

- KEDGE Bachelor (3 years)
- International BBA (4 years)
- EBP International (5 years)
- Master in Management 'grande école' program
- MS / MSc in Procurement, Supply Chain, International Trade & Logistics, International Business, Sport Management, Marketing, Wine and Spirits, Health Innovation, Arts & Creative Industry, Business Engineering, Design etc.
- Executive MBA
- Executive education

All programs are accessible to international students, through competitive examination or individual application.

## ◆ RESEARCH

With a strong tradition of academic excellence and as a leading business school, KEDGE is committed to strengthening its national and international research impact and visibility. Its 4 centers of excellence are Marketing & New Consumption, Supply Chains, Sustainability and Food-Wine & Hospitality. It also has 3 dedicated centers of expertise: Finance Reconsidered, Healthcare & Innovation and Creative industries & Culture. The emergence of new knowledge and its dissemination to different audiences (students, companies, academia and the general public) are at the heart of the activities of these centers. The school is regularly recognised in research-related rankings and has received several awards for the quality and quantity of its academic output.

Further, at the start of the 2020 academic year KEDGE opened its own doctoral program that aims to provide student researchers with cutting-edge methods for theoretical and empirical research.

## ◆ STRENGTHS

- Triple international accreditation (EQUIS, AACSB, AMBA)
- A close link with the business world (800 corporate partners: La Poste, BNP, Savencia, Lectra, ONET, HILTI, Danone, Auchan, Philips, Mars, Lafayette Gallery, Decathlon Oxylane, Axa, Dell, CMA CGM, Deloitte, Airbus Helicopters, EY, KPMG, Volkswagen Group France, Société Générale etc.)
- An alumni network of 70,000 members
- A high rate of employability: 90% of its students are recruited upon graduation and 99% after 6 months
- 2/3 of the programs are offered in English
- Main campuses located on world-famous sites : Bordeaux, Marseille, Paris, Toulon, Dakar, Shanghai and Suzhou.

## ◆ LOCATION

Bordeaux, Marseille, Paris, Toulon, Dakar, Shanghai and Suzhou.

# SKEMA BUSINESS SCHOOL

**skema**  
BUSINESS SCHOOL

SKEMA Business School is a top ten French global business school. Member of the "Conference des Grandes écoles" and recognised internationally with the triple accreditation EQUIS, AACSB and EFMD Accredited EMBA as well as the FT rankings. SKEMA's mission is to train and educate the talented individuals businesses require in the current competitive environment.

- **A multi-campus curriculum:** the school is international, with three sites in France (Lille, Paris and Sophia Antipolis), one in China (Suzhou), one in the USA (Raleigh), one in Brazil (Belo Horizonte) and one in South Africa (Cape Town).

- **Rich educational programmes:** SKEMA's programmes reflect the latest research into the challenges posed by the management of innovative and high-tech projects, the management of information, customer relations, globalisation, and economic dynamics.

- **A more valuable degree:** SKEMA students now have a wider choice of curricula and enjoy the benefits of an enlarged alumni network (48,000 alumni throughout the world), an even larger faculty, and over 130 international partners in more than 40 countries.

## ◆ MAIN PROGRAMMES OF STUDY

- **SKEMA Global BBA:** four-year degree on five continents taught in English, admission directly after French baccalauréat or International equivalent:

- **ESDHEM:** 2 or 3 years taught in French, admission after BAC or 1/2 year(s) of university or International equivalent:

- **MSC programmes:** 19 specializations - one or two year programmes taught in English, admission with a three- or four-year bachelor's degree:

- **Master in Management (Grande Ecole programme)** Two-year programme taught in English, admission on selective examination with at least a three-year bachelor's degree (GMAT, GRE obligatory)

- **6 Mastère Spécialisé programmes (specialised masters)** 12- to 18-month programmes taught in French and English, admission with master's degree or equivalent:

- **PhD program,** 6 to 9-semester program taught in English, admission with master's degree.

- **Executive Education :** Global Executive MBA

## ◆ RESEARCH

With more than 170 researchers, the SKEMA has an international dimension, and its works lead to major innovations in the field of management science. Five research centres:

- FAIRR (Finance and Accounting Insights on Risk and Regulation)

- KTO (Knowledge, Technology and Organisation)

- MINT (Marketing Interactions)- the Marketing, Consumption and Retailing Research Center

- PRISM (PReject Information and Supply Management)

- RISE<sup>2</sup> (Reflections and Research In International Strategy Sustainability Entrepreneurship and Economics)

More info at: [www.skema.edu/research](http://www.skema.edu/research)

## ◆ STRENGTHS

- SKEMA is accredited EQUIS, AACSB and EFMD Accredited EMBA.

- SKEMA's worldwide international ranking: 3rd best worldwide [Financial Times 2020 – Master in Finance]

- 3rd best worldwide [Financial Times 2020 – Master in Finance]

- SKEMA's ranking in France: 4th best French school [Financial Times 2019 – Master in Management] and 12th best worldwide

- 5th best French school [L'étudiant 2020 – Grande Ecole programme]

- 9,000 students, 120 nationalities

- 70 student associations

- An alumni network of over 48 000 graduates all over the world

- The help of Talent and Careers to support students' professional development

- Free French course offered to students

- International students admitted to any SKEMA program get all the help they need in housing, complying with visa and residency requirements.

- Chinese and Vietnamese students who meet certain requirements will be exempted from the Campus France interview to obtain the French Visa.

PARIS

# CESI ÉCOLE D'INGÉNIEURS

**CESI Graduate School of Engineering is a 5-year school of engineering that covers the whole national territory with 25 campuses and with a student-centered scheme.**

**CESI Graduate School of Engineering also provides labelled Executive Post-Master degrees.**

**CESI Ecole d'Ingénieurs gives each engineering student the opportunity to build a tailor-made career path in which he or she is an actor.**

## ◆ MAIN PROGRAMMES OF STUDY

- CESI Graduate School of Engineering provides :
- **a 2-year undergraduate programme** (Pre Eng Cycle) with a 1st year common to all specializations ;
  - **a Master degree in Engineering** (3-year programme) with 4 majors :
    - IT - Computer science
    - Industrial Engineering
    - Civil Engineering and construction
    - Embedded systems
  - **Executive Post Master degrees** in : IT, Project management, Organization and industrial performance, Quality, safety, environment and CSR, Civil engineering & construction.

## ◆ RESEARCH

The objective of research at CESI is to produce knowledge and methods at the service of the scientific community. Its current organization is linked to the fields of training and helps a better identification of LINEACT CESI within the research ecosystem. It puts its results at the service of CESI's partner companies and contributes, in its fields, to take up the technological challenges in the territories that host and nourish it. It is also at the service of CESI learners to participate in their training through research.

Research is positioned on two complementary and unifying scientific themes and two major areas of application: "Learning and

Innovating", and "Engineering and digital tools". The two application domains of the City of the Future and the Industry of the Future enable us to combine the business skills essential to the implementation of our projects around our scientific themes. They respond to the two major challenges that are the energy and digital transitions of our societies.

## ◆ STRENGTHS

- **Our innovative scheme** involves an active approach to learning that is centered on the student. We also provide close guidance to help students in clarifying and achieving their career objectives.
- **CESI is recognized by several academic bodies** : our degrees are accredited by the CTI (Accreditation Board in Engineering) and certified EUR-ACE (European Quality Label). We are a member of the Conférence des grandes Ecoles (CGE), Conférence des Directeurs des Ecoles françaises d'Ingénieurs (CDEFI), n+i Network, Campus France Forum, CDIO™, Girls on the Move, AUF, signatory of the Erasmus+ charter, and FITEC projects among others.
- **International development** is a key dimension of the CESI's mission. The school offers dual degrees, integrated curricula, professional trainings abroad, and technical assistance in the field of educative engineering and politics. CESI also welcomes international exchange students and is involved in numerous European projects. Since more than 25 years, a mission abroad is compulsory for CESI engineering students.
- **Services for international students** : buddy programme, help to find an accommodation, guidance at each administrative step, ...

## ◆ LOCATION

**The 25 campuses** are located in Aix en Provence, Angoulême, Arras, Brest, Bordeaux, Caen, Dijon, Grenoble, La Rochelle, Le Mans, Lille, Lyon, Montpellier, Nancy, Nantes, Nice, Orléans, Paris, Pau, Reims, Rouen, Saint-Nazaire, Strasbourg, Toulouse.

ANGERS

# ÉCOLE SUPÉRIEURE D'AGRICULTURES D'ANGERS

**Founded in 1898, ESA is a multidisciplinary Higher education and research institution whose areas of expertise range from agricultural production to land-use planning. Located in western France, in France's principal agricultural and agri-food region, ESA focuses on the realities of Europe and the world. Our mission is to teach students the scientific, technical and professional skills needed to address the economic, social, intercultural and geopolitical realities of our century. 3400 learners enrolled, among them 10% from abroad.**

## ◆ MAIN PROGRAMMES OF STUDY

ESA offers programs in all the fields of agriculture : plant production and animal production, food sciences, land-use planning, rural development, business/trade, distribution, environment, management, horticulture, and viticulture. Financial aid is available. - Doctorate (PhD): 5 research units - Master's degrees: in agriculture, food sciences, and the environment. These international programs are conducted in partnership with other universities in Europe, opening up opportunities for joint degrees with our partners in Spain, Chile, Brazil, Mexico, and the Netherlands, among others. - International Vintage master in vine, wine, and terroir management, the first European master in this field (Erasmus Mundus label from 2005 to 2014) - Food Identity master in the international development of local products (Erasmus Mundus label from 2010 to 2015) - Master's degree / diplôme d'ingénieur by sandwich course, company sponsored : Since its creation in 2001, the program has trained more than 200 of 33 nationalities on behalf of some 30 companies, financing the whole duration of the course. - Bachelor: Agricadre, 4-year degree in agricultural and agri-food business and management - 4-year bachelor's degree in engineering (joint with CAH Dronten in the Netherlands, an international program with 3 possible specializations: animal products, plant products, and international trade - Bachelors in management, plant products, land-use planning, animal products, and viticulture-enology - BTS (2 year technical training) programs in plant

products, land development, horticultural products, technical-commercial support, analysis and management of agricultural operations, management and conservation.

## ◆ RESEARCH

5 research units at ESA focusing on sustainability in agriculture, food and regional development : LEVA (legumes, Plant Ecophysiology, Agroecology), GRAPPE (research group on agri-food products and processes), LARESS (social sciences and the development of regional agriculture), URSE: research unit on livestock systems, and the landscape design unit & Ecology of Agrocampus Ouest/ESA.

## ◆ STRENGTHS

- 140 university partners all over the world, - Fellow French students, who serve as mentors, help foreign students adapt to their new environment. A faculty counsellor is assigned to each foreign student enrolled in a degree program.

## ◆ LOCATION

Situated in the heart of the Loire Valley, a UNESCO world heritage site and Europe's largest agricultural and agri-food region, the city of Angers and its environs offer both economic dynamism and an exceptional historical and cultural environment. The city's 42,000 students enjoy a location that is just 90 minutes from by train Paris and 60 minutes from the Atlantic Ocean.

RENNES

# ENSAI

## ÉCOLE NATIONALE DE LA STATISTIQUE ET DE L'ANALYSE DE L'INFORMATION

**ENSAI is one of France's top graduate schools for Data Science. Its close ties with research laboratories, notably CREST, and its historic links to the the French National Institute of Statistics and Economic Studies (INSEE) reinforce its status as a prestigious Grande École.**

**ENSAI offers a diplôme d'ingénieur program, the innovative Master for Smart Data Science, taught entirely in English, the EMOS-labelled Master in Data Science for Public Decision Making, as well as a PhD program.**

### ◆ MAIN PROGRAMMES OF STUDY

ENSAI offers **six specializations** in its flagship Engineer Statistician program:

Data Science and Advanced Statistical Engineering,  
Data Science and Biostatistics,  
Data Science for Economic and Health Modeling,  
Data Science and Data Engineering,  
Data Science and Quantitative Marketing,  
Data Science and Risk Management.

ENSAI also offers access to research-oriented Master's degrees, including the **Master for Smart Data Science**, taught entirely in English, as well as a **PhD program in Applied Mathematics**.

### ◆ RESEARCH

Research at ENSAI takes place within the framework of the Center for Research in Economics and in Statistics (CREST), which is made up of researchers from ENSAI, ENSAE Paris, and Polytechnique. ENSAI regularly welcomes visiting researchers and doctoral students from France and abroad.

CREST researchers both host and help organize events such as seminars, and national and international conferences in collaboration with other local and national research units and organizations such as the Mathematics Research Institute IRMAR and the French Statistical Society (SFdS - Société Française de Statistique).

### ◆ STRENGTHS

ENSAI is home to one of the best Data Science programs in the whole of France. Part of the French Ministry of Economy and Finance, with administrative ties to France's National Statistical Institute (INSEE), ENSAI and its sister school ENSAE are part of the Group of National Schools of Economics and Statistics: GENES.

ENSAI educates Data Scientists – for the private and public sector – capable of giving meaning to data. Our Data Scientists are qualified experts capable of collecting, treating, and modeling data, making it possible to derive meaning and inform decision making.

ENSAI graduates have advanced skills in Statistical Modeling as well as complementary skills in Computer Science and Quantitative Economics. They are unanimously recognized for the quality of the innovative scientific and operational training they receive at ENSAI and their ability to meet the needs of businesses and administrations across a wide array of sectors.

ENSAI's professors are members of the Center for Research in Economics and Statistics (CREST) research laboratory, which fosters a dynamic research environment combining both fundamental and applied research in Statistics, Economics, and Computer Science which continually informs and influences ENSAI's curriculum. ENSAI has developed a network of academic and business partners around the globe. The school has 30 exchange partnerships in 13 European countries, as well as other exchange and double degree agreements with universities in Europe, the United States, Africa, and Asia. Additionally, around 20% of ENSAI's students come from abroad.

ENSAI graduates around 100 Data Scientists and nearly 50 Official Statisticians annually. Maintaining manageable class sizes allows the school to make sure students get the personal attention and advice they need to ensure that they succeed in their studies and begin their careers successfully.

ENSAI is not just a great school. It is also an enjoyable place to study. With its active organizations and diverse student population, its modern building and peaceful campus, and its friendly, welcoming personnel, ENSAI has everything to please students who seek to study at a premiere institution in France.

### ◆ LOCATION

ENSAI is located on the Ker Lann Campus, near Rennes, the capital of the Brittany region of France. Less than a 1.5 hour train from Paris and 45 minutes from the coast, Rennes is known for its numerous cultural events and festivals, as well as being a lively college city with two major universities plus a number of graduate schools. Brittany, a region renowned for some of France's most spectacular coastline and landscapes, is continually ranked among the top places for living, working, and tourism in France.

IN  
FRANCE

ÎLE DE FRANCE

# INSTITUT MINES-TÉLÉCOM (IMT)

**Institut Mines-Télécom (IMT) is a public institution made up of 10 engineering and management schools (grandes écoles):**

- IMT Mines Albi
- IMT Mines Alès
- IMT Atlantique
- IMT Lille Douai
- Mines Nancy
- Mines Saint-Etienne
- Telecom Paris
- Telecom SudParis
- EURECOM

**Our first Grande Ecole dates back to the 18th century.**

**IMT graduate schools have a combined faculty of more than 1,400. Each year they graduate more than 2,500 engineers and 300 managers. The combined enrollment of 12,600 includes 1,120 doctoral candidates.**

## ◆ MAIN PROGRAMMES OF STUDY

IMT schools confer the following diplomas: Master of engineering, of management (grande école), advanced and post Master degrees, Master of Science, as well as the doctorate in the following fields:

- Applied mathematics
- Civil engineering
- Electronics
- Energy
- Environment
- Health
- Industrial engineering
- Information and communication technologie
- Materials engineering
- Mechanics
- Nuclear Engineering
- Security and risk
- Microelectronics
- Social sciences and economics

## ◆ RESEARCH

IMT research activities are organized into five main disciplinary themes: digital technologies, energy, materials, natural resources and the

environment and economics, enterprise and society.

IMT also pursues a very active policy of business creation and partnership with small and medium-sized enterprises, relying on the network of incubators of member schools (100 start-ups created each year).

## ◆ STRENGTHS

- Multicultural campuses: 30% of students are international, and some 60 nations are represented in the student body.
  - Close relations are maintained with businesses in the delivery of traditional degree programs and continuing education, in research projects, and in the work of foundations.
  - Graduates enjoy excellent career prospects and attractive starting salaries.
  - Strong alumni networks help jumpstart careers, facilitate access to information, and feed the member schools' corporate partnerships.
  - Academic Excellence scholarships are available to attract the best students.
- L'IMT develops key international initiatives:
- Institut Mines-Télécom Dakar for pedagogical innovation to support the digital transformation in Africa
  - German-French Academy for the Industry of the Future
  - Data science for Europe (TeraLab y GAIA-X)

LYON

# ITECH LYON

## CHIMIE DES POLYMÈRES ET MATÉRIAUX

(TEXTILE, CUIR, PLASTIQUE, FORMULATION)

ITECH Lyon trains engineers in the field of polymers and their applications, in particular in plastic materials, textiles, composites, chemistry (through paints, inks, adhesives and cosmetics) as well as in leather and its uses (shoe making, leather goods).

ITECH is a member of the *Conférence des Grandes Écoles* and of the *Institut Polytechnique de Lyon (IPL)*.

ITECH's degrees are accredited by the *Commission des Titres d'Ingénieur (CTI)* and by *EUR-ACE (European Accreditation for Engineering)*.

### ◆ MAIN PROGRAMMES OF STUDY

Become a creator of future products in the sectors of sports and leisure, luxury goods (leather, cosmetics), automobiles, aeronautics, construction, and more.

- An Engineering Master Degree program, with different majors to choose from: formulation chemistry (paints, inks, adhesives, cosmetics): plastics, textiles, leather.

Possibility of following the full program in English.

- 1-year undergraduate specialization: Advanced technician in cosmetics and formulation of colored products.

- 1-year specialized master (Mastère Spécialisé): 4 different programs alternating between school/project or company assignments.

- IPL Summer School:

5 weeks from mid-June to mid-July focusing on polymer applications in materials.

French language courses (40 hours), small-group practice (50 hours), plus cultural excursions and more.

### ◆ RESEARCH

Corporate partnerships: ITECH Entreprises (an ITECH subsidiary) manages:

- Mutually agreed contracts with corporations
- Participation in national and European consortia on themes including life-cycle analysis, recycling, reclaiming obsolete materials, lightening of structures

### ◆ STRENGTHS

The students get a highly professionalizing education:

- 3 internships during their curricula
- A mandatory international experience
- At least 1 exchange semester in a partner university
- The End of Studies internship can take place in France or abroad, and generally in a company.

ITECH is one of the only engineering schools offering specialization in the fields of:

- Leather and its application on leather goods manufacturing, mainly for the luxury good industry
- Plastic Materials and their application in the automotive, packaging or sports fields
- Formulation Chemistry applied to Paints, Inks, Adhesives or Cosmetics
- Textile applications, technical or traditional

All these specialities allow the students to be quickly operational after graduation, whether this be in the automotive, aeronautical, sports, luxury, packaging or medical sectors...

### ◆ LOCATION

ITECH is located in the Lyon metropolitan area, a major European center and capital of France's Rhône- Alpes region. Lyon is a lively university city with a rich historic heritage (the city is a UNESCO world heritage site) and a strong manufacturing presence.

The Textile department is located in Roanne (80 km from Lyon), a city rich in history and very strongly linked to the industry of the sector.

### IDENTITY FORM

# IAE FRANCE

## ÉCOLES UNIVERSITAIRES DE MANAGEMENT

**IAE** FRANCE  
University Schools  
of Management

**IAE FRANCE is the largest network of Management Schools in France with 35 University Schools of Management and 52,000 students. They offer more than 30 degrees in all fields of Management from Bachelor to Pdd.**

**Created in 1955, they are linked to 35 research laboratories including 10 associated to CNRS. IAE are offering academic excellence, all IAE schools are accredited by Qualicert and some of them benefit from international accreditations (EQUIS, EPAS, AMBA).**

**More informations: [www.iae-france.fr/en](http://www.iae-france.fr/en)**

### ◆ MAIN PROGRAMMES OF STUDY

Range of courses: Management - Business administration - Strategy - Public and sectoral management - Production - Logistics - Purchases - International - Accounting - Control - Audit- Teaching- Finance- Human resources - Marketing - Sales - Communication - Information system - Business administration (double competence)

### ◆ RESEARCH

35 research laboratories including 10 associated to CNRS.

### ◆ STRENGTHS

#### 1. Academic excellence

State recognized degrees  
Qualicert and prestigious international accreditations (EQUIS, EPAS, AMBA)

#### 2. Research centers

35 research laboratories  
Including 10 associated to CNRS

#### 3. Close corporate connections

Excellent job placement rates  
Programs designed with businesses for businesses

#### 4. International identity

Active network of 1400 first-level international partners  
Student and faculty mobility, double-degree, short programs, off-shore programs

#### 5. Student services

French as a foreign language courses  
Campuses in French city centers

### ◆ LOCATION

Our 35 schools are located all over the French territory :

Angers - Aix-en-Provence - Amiens - Annecy (Savoie Mont-Blanc) - Bordeaux - Brest - Caen - Clermont-Ferrand - Corte - Dijon - Grenoble - La Réunion - La Rochelle - Lille - Limoges - Lyon - Metz - Montpellier - Nancy - Nantes - Nice - Orléans - Paris - Paris Est (Gustave Eiffel) - Pau-Bayonne - Perpignan - Poitiers - Rennes - Rouen - Strasbourg - Toulon - Toulouse - Tours - Valenciennes - Versailles

PARIS

# AGREENIUM

**A world class system for research and education in agriculture, veterinary, forestry and environmental sciences.**

**Agreenium is a public institution which brings together the competences of all the french public agricultural and veterinary research and higher education institutions.**

**It was created on 13 October 2014 (law for agriculture, food and forest). 18 french public institutions share their expertise and strategic thinking in a common culture and identity.**

## ◆ MAIN PROGRAMMES OF STUDY

- Social sciences and economics in rural development
- Biology, ecophysiology, and agroecology
- Sustainability of production systems
- Environment, biodiversity, water, forestry and natural resources
- Veterinary sciences
- Food science and Nutrition
- Landscaping

## ◆ RESEARCH

Agreenium was formed to respond to major demographic, environmental, and energy challenges at the global level. Agreenium's members are all major actors in agronomic research and training, have pooled their skills and resources to have a greater impact at the international level.

The goal of the partnership within Agreenium is to contribute to the design of new approaches and models in agriculture, food production, veterinary sciences, forestry and resource development in the global North and South through scientific achievements, innovation, training, and the diffusion of knowledge.

## ◆ STRENGTHS

- 300 research units
- 6,800 scientists and research scholars
- 11,300 students
- 2,500 doctoral candidates

- Partnerships in many academic fields and geographic areas
- Cooperative agreements with professional groups, employers, and development organizations
- A presence in 50 countries in the global North and South

## ◆ LOCATION

Twenty renowned campuses including Paris, Bordeaux, Clermont-Ferrand, Dijon, Lyon, Montpellier, Nantes, Rennes-Angers, Toulouse, Strasbourg, Versailles.

# ÉCOLE DE CONDÉ

écoledu  
de condé  
— DESIGN & ARTS GRAPHIQUES

The Ecole de Condé, established in 1989, is a network of private institutions of higher education that provide high-quality education in design, illustration, animation and video games, photography, and the preservation of cultural heritage. The school's facilities in Paris, Lyon, Bordeaux, Nancy, Nice, Toulouse, and Marseille offer a work setting that is well suited to the challenges of contemporary creativity: well-equipped labs, prototyping labs, 3D printers, proximity to cultural resources, a library and documentation center, student services, and more.

The Ecole de Condé offers state-recognised diplomas. International recognition of the school's credentials is assured by accreditation from EABHES, an international higher-education accrediting body.

The École de Condé brings together five other European schools: IAAD and Accademia Italiana in Italy, HMKW in Germany and CEV & CES in Spain. These 6 schools and their 17 campuses allow students from the beginning of their studies to understand the international dimension of their profession. Thanks to this device, they can design an original international career, benefiting from the advantages of each of the establishments but above all from the variety of cultural, creative and professional environments.

Ecole de Condé is part of the AD Education network that brings together 7 schools in France (25 campuses) and 2 in Italy (4 campuses), 2 in Spain (3 campuses) and 1 in Germany (3 campuses): [www.ad-education.com](http://www.ad-education.com)

## ◆ MAIN PROGRAMMES OF STUDY

- Foundation year in Design
- Foundation year in Illustration-Animation
- Bachelor:
  - Graphic Design
  - Interior Design
  - Product Design—Objects
  - Fashion Design
  - Photography—Motion Pictures

- Illustration—Comic Art—Animation
- 2D Animation
- Animation & Video Game Design
- Cultural Heritage Preservation
- Master:
  - Global Design-Research & Innovation
  - Art Direction (design graphique)UX/UI
  - Fashion Design
  - Interior Design
  - Interior Design & Luxury Scenography
  - Product & Furniture Design
  - UX/UI Design & Virtual Reality
  - Innovative materials & sustainable development
  - Illustration & Comic Art
  - 2D animation
  - 3D Animation & Video Game Design
  - Conservation-restoration of cultural heritage

## ◆ RESEARCH

The Ecole de Condé is innovative and places a priority on research and projects with cultural institutions and corporate partners. Cooperation with cultural institutions such as the Opera of Paris, the Philharmonic of Paris or the Theatre of Champs Elysées, with companies (Thalès, SNCF, L'Oréal, Chanel) or with some prestigious schools (HEC, Centrale Paris, Ecole Nationale de Cognitique, Ecole 42) are an integral part of the education programmes taught at Ecole de Condé. Design is a major challenge for the future of companies and institutions. Through its innovative teaching methods Ecole de Condé aims to train high level designers contributing to the development of an interdisciplinary study focused on new fields of investigation and application of design principles.

## ◆ STRENGTHS

- Leading school of design and graphic arts in France (3,500 students)
- A high work placement rate
- State-recognised diplomas
- School recognized for its creative projects and partnerships
- High-quality facilities and equipment
- Highly qualified faculty

## ◆ LOCATION

7 Campuses: Paris, Lyon, Nancy, Bordeaux, Nice, Marseille and Toulouse, all in the downtown of the city, easily accessible, and offering rich cultural opportunities and a great student life.

## IDENTITY FORM

- ◆ **Precise name of the institution**  
Ecole de Condé

IVRY-SUR-SEINE

# EICAR

## THE INTERNATIONAL FILM & TELEVISION SCHOOL, PARIS

**EICAR.**  
THE INTERNATIONAL  
FILM & TELEVISION  
SCHOOL PARIS

**EICAR was founded in 1972. The School has developed over the years to become a major European film and television school.**

**Our mission is to prepare our students for the international job market.**

**Eicar, a school whose expertise is widely praised by the industry, focus:**

- High level knowledge and skills,
- The development of industry skills though teamwork and an emphasis on responsibility. A pedagogy based on practical experience and team working.

**EICAR is part of a Quality plan through which we are committed to:**

- Allow students to identify their career plans.

**- Ensure both technical and relevant means for each program.**

**- Entrust the training programs to working professionals and university graduate professors.**

**- Develop the "School-Employers" relationships to anticipate societies' needs in terms of skills, in order to encourage employability.**

### ◆ MAIN PROGRAMMES OF STUDY

Programs in French:

- Directing
- Sound and Music
- BTS audiovisual Degree (French syllabus accredited by the Ministry of education in Production, sound, cinematography, editing)
- Acting
- 3D Animation
- Production
- Summer workshops

Programs in English:

- Bachelor of Fine Arts in Filmmaking.
- Majors: directing, cinematography, screenwriting, producing, editing
- Master of Fine Arts in Filmmaking.
- Majors: directing, cinematography, screenwriting, producing, editing
- One Year Filmmaking Program
- Summer workshops

### ◆ STRENGTHS

- Latest generation equipment and software
- A teaching staff composed of audiovisual professionals
- Numerous students productions: short films, documentaries, plays...
- Recognized degrees: 6 RNCP titles, Bachelors, Masters, BTS audiovisual Degree...
- English and French speaking Master classes every week
- The school is located at the heart of one of Europe's largest film and television production sites
- Over 60 nationalities
- A thousand partner companies
- A "scientific council" composed of recognized professionals to help orient the school in its pedagogical choices.

### ◆ LOCATION

The school is located at the heart of one of Europe's largest film and television production sites:

- The campus is 500 meters from the city of Paris, a short distance from Montmartre.
- 80% of the country's TV productions are produced on site.
- The campus is home to many national and international companies: producers, manufacturers of audiovisual equipment, software developers.

FERRIÈRES-EN-BRIE

# ECOLE FERRIERES

## HOTELLERIE - GASTRONOMIE - LUXE

## HOSPITALITY - GASTRONOMY - LUXURY

Supported by the most well-known experts in Hospitality, Gastronomy and Luxury along with those from Higher Education, Ecole Ferrières plans to become the international standard for French Excellence.

Ecole Ferrières' mission is threefold:

- Educate students from around the world to become professionals in Hospitality, Gastronomy and Luxury through various programs that are pertinent to industry needs

- Contribute to the expanding knowledge and practices in three dimensions: hospitality management, French gastronomy and luxury

- Reinforce the influence and allure of France in the sectors of excellence.

The method is founded on the multitude of experiences in France and internationally in the setting of an academic curriculum and innovative practices extending even to include educational financial aid.

### ◆ MAIN PROGRAMMES OF STUDY

- Hotel Management
- Food and Beverage
- Luxury
- Tourism and Events Management

### ◆ STRENGTHS

- Two Programs: French and English
- Diploma: versatility in the first 2 years and a choice of a specialization in the 3rd year (Bachelor Ferrières) or 4th year (IBBA)
- Triple dimension in learning: Hotel Management, Gastronomy and Luxury
- Double degree possibilities with SKEMA and Grenoble Business Schools
- Job opportunities in sectors that are in constant development
- PAP or Programme for Accelerated Professionalisation is an exclusivity of Ferrières: No applied-learning restaurants and hotel but an individual tutoring program in operational

structures exposing students to the realities of the field

- Exceptional setting of the Castle of Ferrières, in perfect harmony with luxury professions
- Pedagogical and professional infrastructure: innovative educational tools
- Sponsorship Committee composed of world-renowned Professionals
- Highly recognized teachers and speakers

### ◆ LOCATION

Ecole Ferrières is close to Paris. It is located 25 kms east of Paris, in the Seine-et-Marne region, 10 minutes away from Disneyland. The School is accessible via public transportation: local train and bus.

### IDENTITY FORM

# COURS DE CIVILISATION FRANÇAISE DE LA SORBONNE

COURS DE civilisation  
française  
DE LA Sorbonne

The Cours de civilisation française de la Sorbonne, created in 1919 celebrated their first centenary.

The CCFS teach French language and civilization - in immersion in Paris - to nearly 2,000 foreign students per year, and at all levels.

## ◆ MAIN PROGRAMMES OF STUDY

- 6 fields « Language and Civilization » according to 6 levels of Cadre européen de référence pour les langues (A1, A2, B1, B2, C1, C2)
- Business French courses
- Preparatory classes for admission at the University.

## ◆ RESEARCH

Research in Didactics, which has led to FLE series at Belin Éditions (4 titles published).

## ◆ STRENGTHS

Nearly 50 permanent professors specialized in FLE (French as Foreign language), including 10 professors specialized in Phonetics.

Important link between Language, Culture and Civilization.

The CCFS has obtained the Quality label FLE, with the higher grades (15 stars out of 15) Examination center for DELF (B1 & B2), DALF (C1), TCF tests, and DFP.

## ◆ LOCATION

Paris  
The Cours de civilisation française de la Sorbonne are located in the center of Paris. Metro station Solferino (line 12), Varenne (Line 13) or Musée d'Orsay (RER C).

## IDENTITY FORM

- ◆ **Precise name of the institution**  
Cours de civilisation française de la Sorbonne
